WATCHMAKER & JEWELER

Curlers Meet and Choose Skips

A very good meeting of the local curlers was held in the rink on Friday evening with an attendance of about thirty. There was a considerable amount of business gone through which together with several lengthy discussions and election of skips took up the evening. Rules re times of schedules, substitution of players, postponed games and outside games were also voted on.

The new Sportsmen's Cup with the four individual trophy cups was on display and as everyone wants one there will be some very keenly contested games in this schedule. It was decided however to play off the first schedule for the old cup as it is expected that there will be a larger membership during the second schedule.

As there was a membership signed up to nearly complete sixteen rinks it was decided to elect sixteen skips as by the time curling started the full number of rinks, which was limited, would be filled. The ice was practically completed and awaits only a couple of days of cold weather to finish off. The following are the elected skips: J. Reed; E. Freeman; I. Miller; J. Huet; F. Kauffman; J. McGhee; A. Ryan; A. Brusso; A. Studer; T. Thompson; W. Liesemer; J. Berscht; G. Julien; W. Hardy; C. Dooley; Dr. J. Clarke

New Officers of Royal Arch Masons

Joseph Stauffer Chapter of the Royal Arch Masons held their installation of officers on Wednesday night last (November 12th). M. Ex. Comp. W. E. Holmes, of High River, was the installing officer. After the installation ceremonies a lunch was served and a short social time enjoyed by those present. The officers installed for 1925 were as follows:

Ex. Comp. E. Freeman, Z.; Ex. Comp. C. Hartman, I. P. Z.; Ex. Comp. A. Brusso, H.; Ex. Comp. A. Dunkley, J.; Comp. J. L. Clarke, S. E.; Rt. Ex. Comp. J. McGhee, Treas.; Comp. T. Grant, S. N.; Comp. J. McDougall, P. S.; Comp. M. R. Maybank, S. S.; Comp. T. Thompson, J. S.; Comp. A. Shearer, M. 1st V.; Comp. W. Hart, M. 2nd V.; Comp. W. Leadbetter, M. 3rd V.; Comp. A. Buckler, M. 4th V.; Comp. J. C. Sheffield, Organist.

CARD OF THANKS

The executive and members of the Didsbury Women's Institute wish to express their thanks to those who donated chicken, etc., for the dinner held on Armistice night; Also to those who assisted in making the program and to all others who in any way contributed to its success.

CARD OF THANKS

We wish to express to our many friends and neighbors our sincere thanks and appreciation for the flowers given and help received during our recent bereavement.

Signed E. R. and A. A. Dawson.

BORN:—On Saturday, November 8th, 1924, to Mr. and Mrs. Wm. Rigby, a son.

OXFORD DEBATING TEAM

VISITS PROVINCE

The Oxford debating team of which Malcolm McDonald, son of ex-premier McDonald of Great Britain; J. D. Woodruff and M. C. Hollis, are the members, will meet a team from the Alberta University in Edmonton on November 21.

Hockey League Elects Officers

Harper Miller of Carstairs was re-elected president of the Rosebud Hockey league at the annual meeting held in Didsbury last week.

The league will comprise Crossfield, Didsbury, Carstairs and Innisfail, while Olds will come in, providing the hockey management can secure a rink. As Olds is one of the best sporting towns along the northern line of the C. P. R., it is expected that the city fathers will get busy and see that a rink is built, otherwise the younger generation of Olds will have a dreary winter ahead. The league will open the season about December 15. The new officers are: Hon. President, J. A. McGhee, Didsbury; President, Harper Miller, Carstairs; 1st vice-president, Mr. McDermott, Innisfail; 2nd vice-president, Mr. McRae, Crossfield; 3rd vice-president, Earl Freeman, Didsbury; secretary-treasurer, C. E. Reiter, Didsbury.

"THE COVERED WAGON"

On Wednesday, December 3rd there will be shown in the Opera House at 2:30 and 8:00 p. m., one of the mightiest pictures of the silver screen, "The Covered Wagon". A magnificent picture which has drawn capacity houses in all cities and towns shown. It is a ten reel story of the adventures of a covered wagon train across western plains in 1818 and is most realistic of those days. Interwoven like a golden thread runs the love story of the father of one caravan with the daughter of the leader of another, these parts being taken by two very favorite screen characters, J. Warren Kerrigan and Lois Wilson. An inspiring picture which it will be a misfortune to miss. Don't forget, matinee and evening performance on Wednesday, December 3rd.

PROVINCE'S NATURAL RESOURCES

Premier King at Ottawa has set November 19 and 20 as the dates upon which the federal cabinet will discuss the question of the return of Alberta's Natural Resources to the province, with Premier Greenfield and Attorney General Brownlee, who will represent Alberta.

ALBERTA MAN WINS IN CATTLE

O. A. Boggs of Daysland, was a prominent winner in the Hereford class at the winter stock show at Guelph, Ontario, last week. Mr. Boggs is also exhibiting with other Alberta stock growers at Toronto and Chicago.

AROUND THE TOWN

Mrs. H. Hyndman and Mrs. J. Whiteside spent several days in Calgary, returning on Tuesday.

Messrs. Freeman and Austin made a flying business trip to Edmonton on Wednesday.

Rev. A. Traub will hold quarterly service in the M. B. C. church Sunday morning, November 23rd at 10 a. m. All are invited to attend.

Another change in the weather has taken place in the last few days. It has been warm and bright and the snow has nearly all disappeared.

Taxation

Problems of taxation, Federal and Provincial, and to some extent municipal, are subjects of consideration at a conference in session at Ottawa as this article is written between the Finance Minister of Canada and the Treasurers of the several Provinces. Methods of taxation constitute a problem in which all men entrusted with the responsibility of Government and the administration of public affairs must be and are deeply interested. They are not backward in displaying that interest, nor can they be accused of delinquency in imposing taxation, whatever other charges of neglect may be laid at their doors.

If members of Government, who are responsible for the imposition and collection of taxation, are thus deeply interested, how much more vitally interested should the people as a whole be who have to pay the taxes. It is regrettably true, however, that a large percentage of the taxpayers give little thought or study to the subject except to give voice to criticism and complaints when paying their tax bills. The men and women who pay the taxes should be more keenly interested in the whole subject of taxation than are members of Government whose duty it is to impose, collect and then administer those taxes.

Every citizen should make it his or her business to learn everything they possibly can about this subject. They should study the form of taxation imposed on them; the scope of it; how the taxes are collected, whether economically or otherwise; whether unnecessary duplication in imposition and collection exist; and, finally, to what extent each particular form of taxation places a handicap on business, industry and national development. In a word, each citizen should endeavor to find out whether our systems and methods of taxation are serving their avowed object, or are really operating so as to limit the ability of the people to pay taxes.

According to newspaper reports suggestions for simplifying the imposition and collection of certain taxes have been advanced by Provincial representatives at the Ottawa conference, but these do not seem to meet with much favor by the Federal authorities. Under the British North America Act, the Provinces are limited to the imposition of direct taxes, and prior to the war the Federal Government refrained, for example, from imposing a tax on incomes. But the stress of war finance forced the adoption of a Dominion Income Tax. In some Provinces there are now three taxes levied on incomes, Federal, Provincial and Municipal. In other Provinces there is either a Provincial or a Municipal Income Tax as well as the Dominion tax. It is contended, therefore, that if the Dominion is by force of necessity compelled to maintain its Income Tax, it should make itself responsible for the collection of the whole of the taxes on income and rebate a stated percentage to the Provinces, thus doing away with much duplication and expense in collection.

This seems a sensible and economical proposal and one which undoubtedly would appeal as businesslike to a majority of the people. But Governments are notoriously reluctant to collect taxes for other Governments, and rather than do so the people are forced to put up with and pay for much otherwise unnecessary duplication. It is time the people made their voice heard in the matter. It is their money that is at stake.

The Finance Minister at Ottawa should give heed to the representations of the Provinces, and careful consideration to the views set forth in the memorandum submitted by Provincial Treasurer Black, of Manitoba. Provincial policies and services do not impose additional expenditures on the Federal Government, but many Federal policies do compel larger expenditures by the Provinces without any compensating increase in Provincial revenues. For example, immigration expenditures by Ottawa mean additional population, and additional population results in increased Federal revenues through Customs, Excise, Post Office, etc., etc. But to the Provinces increased population means larger expenditures for roads, bridges, ferries, schools, administration of justice, etc., etc., with only a paltry return by reason of the per capita allowance from Ottawa.

The Dominion Government, too, has the whole field of taxation, direct and indirect, open to it. Its power to levy taxation is, therefore, elastic. But the power of the Provinces is limited. The Provincial requirements and expenditures are increasing without any corresponding increase in revenue. Not only is such a situation impossible for the Provinces and municipalities, but, as Mr. Black points out, it must in the long run adversely affect the whole Dominion because neither Dominion policies or finance can be maintained in a healthy state if the Provinces and municipalities are financially embarrassed.

The whole subject of taxation in Canada requires careful study and wise overhauling, and in this work the interests of the taxpayer rather than of Governmental bodies elected to represent the taxpayer should receive first consideration.

W. N. U. 1551

A Real Blow

Captain Found Young Officer Was Not So Stupid

It was the muddy day's duty aboard ship, and the captain, who had had a pretty thick time of it the night before, was in consequence in no very gracious mood when the budding officer presented himself. "G'morning," he growled, "fool of the family sent to the navy as usual, I suppose." "No, sir," came the reply; "I believe things have altered a little since your day."

The ostrich feather industry in South Africa is on the decline.

Minard's Liniment Relieves Neuralgia

Prevention Of Cancer

Free Use of Soap and Water Advised By Medical Man

The medical profession should interest itself in cancer prevention before conducting a research into what cancer really is, in the opinion of Dr. James Ewing, professor of pathology at Cornell Medical School, who addressed the Ontario Academy of Medicine at Toronto. A few of the striking statements made by Dr. Ewing were: That a more violent use of soap and water would prevent much of the cancer of the skin.

Cancer of the stomach was seldom developed from ulcers of the stomach. Cancer of the mouth, tongue and lips was usually caused by the use of tobacco or by bad teeth. Cancer was usually caused by constant irritation, over a considerable period of time. He expected to see a large increase in the number of cancer cases among automobile mechanics, due to their hands and arms being coated with oil.

Predicts Cheap Aircraft

Will Be Sold For \$500 Says Airplane Manufacturer

H. G. Fokker, the airplane manufacturer, predicts that within 20 years aircraft will be selling for \$500.

"Almost everyone will be flying then," he says, "because planes will be less expensive than motor cars. I am convinced that within ten years we shall be crossing the Atlantic within twenty-four hours, carrying passengers and mails."

Mr. Fokker says that 90 per cent. of the planes now being built in Europe were for the military and naval purposes.

Alberta Boundary Established

Line Between Alberta and B.C. Now Fully Located

After 11 years work on the boundary line between British Columbia and Alberta, R. W. Cautley, engineer, has completed the undertaking. This year the surveying was done in the mountain country and passes near the Smoky River.

The border between the two provinces is now fully located and staked off from—the international boundary to a point on the meridian north of the Peace River block. It is expected that it will not be continued further north until such time as development in the northern portion of the provinces necessitates further boundary surveys.

Wool From Trees

A substance that has many of the qualities of natural wool has been produced from the long, slender spines of the Scotch fir by German scientists. This wool can be curled, felted and spun or woven into carpets, and, mixed with a canvas warp, makes excellent blankets. The coarser qualities are used for stuffing mattresses and have been found proof against insects, while the aromatic odor is said to be agreeable and beneficial to patients.

Urges ZR-3 For Pole Trip

The ZR-3 can make the trip to the North Pole, explore the Arctic Circle and blaze an air trail across the top of the world, in the opinion of Captain Robert Bartlett, Arctic explorer.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor it reaches the very innermost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you knew as well how this remedy would help you as do thousands of grateful users, there would be a package in your home to-night. Try it.

One of the most valuable documents stored in Somerset House, England, is the will of Shakespeare.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

It takes two to make a quarrel, but a dozen or more generally take a crack at it before it is patched up.

CALL ANOTHER CONFERENCE ON TAX PROBLEM

Ottawa.—The calling of further conference to deal with the problems which arise from time to time in the administration of provincial affairs is urged in a resolution passed by the closing session of the conference here between Hon. J. A. Robb, acting minister of finance, and representatives of seven of the provincial governments.

A spokesman for the conference stated that it had been found that the problems arising out of the administration of public affairs in the various provinces presented so many varied aspects that the solution of such problems would be materially assisted by the further interchange of opinion.

The conference was unanimous in its recommendation for the exercise of economy in the administration of governmental departments.

The following agenda for the proposed conference was set forth in the resolution:

- (1).—Overlapping in departments where joint federal and provincial jurisdiction is being exercised.
- (2).—The consideration of income tax as to collection and allocation.
- (3).—Exemption of all purchases by and on behalf of provincial governments from operation of sales tax.
- (4).—Adjustment of federal subsidies to provinces with a view to having provincial subsidies bear a reasonable ratio to provincial expenditures.
- (5).—Provincial taxation of all nationally operated railroads.
- (6).—Inter-provincial relations in respect to succession duties.
- (7).—Consideration of measures for the reduction of taxation and further economies in administration.

Exploration Ship Has Ended Drift

Vessel Depending On Sails To Reach
Safety Is Belief

Christiania.—The Norwegian explorer Otto Sverdrup said the latest message he had received from Raold Amundsen's exploration ship, the Maud, was "unfavorable." He expressed the fear that the plan to drift past the North Pole in the Arctic ice floes would have to be given up.

Dr. Fridtjof Nansen, the explorer, is said to interpret the message from the Maud to mean the vessel has abandoned the drift and is now trying to get back to Berling Strait. He believes the Maud has exhausted her oil supplies and must depend on her sails to reach safety.

Australia Wants Voice

Should Be Consulted In Framing of
Empire's Foreign Policy Says
Bruce

Sydney, Australia.—Premier Bruce, in a speech at Dubbo, New South Wales, in which he dealt with Australia's present position in the British Empire, said if Great Britain or any other part of the Empire were attacked, Australia automatically would be at war. Therefore, if Australia were liable to be attacked because of her connection with the Empire, she must demand the right to be consulted in the framing of the Empire's foreign policy, he said.

To Pay Death Penalty

Tokio.—Daisuke Namba, charged with an attempt to assassinate Prince Regent Hirohito while the latter was driving from the Imperial Palace to the Diet on December 17, last year, was condemned to death. The trial took place in the Supreme Court, the public being excluded.

Fatal Explosion at Grand Rapids

Grand Rapids, Mich.—Two men were killed, one is dying, and 12 are injured as the result of a terrific explosion which destroyed the loading dock and receiving room at the main Grand Rapids Post Office, with a property damage of \$50,000.

Spread of Bubonic Plague

Secundrabad, British India.—An epidemic of the bubonic plague, which has already caused 4,000 deaths, has broken out in the native quarter of Trimalgiri, near here. One of the victims was a British soldier.

W. N. U. 1851

Reparations Commission May Cease To Exist

Paris.—Permanent eclipse of the Reparations Commission to a partial, if not to a total extent, is foreshadowed in a communique issued by the commission's general secretary. The communique describes the measures of reorganization which will be enforced by January 31 "in consequence of the creation of organizations provided for in the experts' plan, the functioning of which must entail considerable reduction in the work of the organizations of the Reparations Commission."

Western Farmers Win Prizes

Prairie Exhibitors Carry Off Awards
—At Guelph Fair

Guelph, Ont.—Western Canada again figured prominently in the prize list at the Western Ontario Fair here, Saskatchewan and Manitoba exhibitors in the Clydesdales being particularly successful.

The Shorthorn reigned supreme in the arena, when over 80 animals, picked from the finest herds in Ontario and the western provinces, competed for the awards. The purple ribbon for the best bull exhibited was carried off by Beauty Chief, owned by Amos Black, of Moffat, Ont., while the award for the champion female was captured by Wright Farms, of Drinkwater, Saskatchewan, on Clipper Zoo 2nd.

In the bulls, senior calf, J. I. Miller, of Kane, Man., took sixth place.

In the Clydesdales, Ben Finlayson, of Brandon, took first in the aged stallions, and first in the three-year-old stallions.

Dr. D. L. Reid, of Canora, Sask., was first in the stallion yearling, and John Bryce, Arcola, Sask., was first in the foal stallion.

Question Of Natural Resources

Disposition Now Is To Deal With
Provinces Separately

Ottawa.—Premier Greenfield, of Alberta, is coming here this month to have another conference on the question of returning to the province its natural resources in public lands and minerals, but no similar move in the long standing matter has been indicated by Manitoba or Saskatchewan.

There is no foundation for the eastern report that a new inter-provincial conference of all the provinces will be summoned on the question. Several held in the past 10 years were abortive. Moreover, the disposition is to regard the question as essentially western, while the later plan is to deal with the provinces concerned individually instead of collectively, owing to the dissimilarity of their interests.

To Preserve Peace

British, French and Belgian Pact
Urged For European Harmony

Brussels.—An Anglo-French-Belgian pact would be the surest security for maintenance of peace in Europe, Foreign Minister Hymans declared in reviewing foreign affairs at the opening of parliament.

He said that since the armistice Belgium had never ceased to hope and work for such a pact. The foreign minister, however, praised the League of Nations protocol as a step toward ultimate disarmament and peace.

Sues Loeb and Leopold

Joliet, Ill.—Suit for \$100,000 damages was filed in Circuit Court here against Nathan F. Leopold, Jr., and Richard Loeb, serving life terms for slaying Robert Franks. The suit was filed on behalf of Charles Ream, a taxicab driver of Chicago, who charged that the two mutilated him.

France Will Pay War Debt

London.—The French ambassador has informed the Canadian High Commissioner, Hon. P. C. Larkin, that on December 31 the Government of France will pay off the debt it owes Canada in connection with the war, the amount totalling \$5,657,000.

German Jewelers Busy

Pforzheim, Germany.—One of the few German industries running on full time at present is the jewelry business here which for some weeks has been operating at capacity to catch up with Christmas orders.

Premier Of Britain

Stanley Baldwin, who will lead the newly-formed Conservative Government in the Mother Country.

King Fuad Confident Of Ruling Sudan

Believes British Will Eventually Grant
Extension of Sovereignty

Cairo, Egypt.—King Fuad in the address from the throne on the occasion of the opening of the Egyptian Parliament, declared that while the recent visit of Premier Said Zagloul Pasha to Great Britain did not result in the beginning of new negotiations, the Egyptian Government had full confidence that this eventually would be the result.

"We shall reach our goal," he said, "by virtue of the strength of right, of the union of the people, of their attachment to the throne, and of the solidarity of all for the safeguarding of our rights in the two parts of the valley of the Nile, without admitting or recognizing any act likely to prejudice them."

Border Patrol Strengthened

U.S. Takes Precautions To Stop
Illegal Entry From Canada

Washington.—The United States immigration border patrol for the Canadian boundary is being recruited to its full strength of 450 men. The end of Canadian harvest, immigration officials said, has found an increasing number of persons attempting to come into this country illegally and every precaution is being taken against this drive.

A dispatch from Winnipeg said the United States border patrol was to be strengthened to combat the smuggling of aliens into North Dakota and Minnesota from Manitoba and Ontario.

Reviving Interest In Wembley

British Government Will Open Exhibi-
tion Again Next Year

Stanley Baldwin's declaration that the government is determined to open the great Wembley exhibition again next year has had an immediate reviving interest in the fair and its future.

Major Tomlin stated that he is still waiting for official word from Ottawa, but that he has already started his plans to make the second exhibition far more representative of Canada than was last year's. He says that he expects Canada's participation next year will be greater than this year.

To Investigate Relations Between Britain and Mexico

London.—One of the first acts of the new Conservative administration is expected to be re-opening of a complete investigation of the relations between Great Britain and Mexico. The attitude of the new cabinet, as a result of the successful overthrow of the De La Huerta revolution, and the desire for a resumption of relations by commercial organizations, is said in well-informed circles to be quite friendly. Foreign minister, Austen Chamberlain, is expected to appoint a committee to investigate the relation of the two countries.

Awaits Return Of Chief Commissioner

Prairies' Application For Crow's Nest
Appeal Starts November 24

Ottawa.—The application of the prairie provinces for leave to appeal to the Supreme Court from the judgment of the railway commission in the Crow's Nest rates case will likely be heard here on November 24, following the return of the chief commissioner from the west. There is no question of this leave being granted.

The matter has been before the cabinet, the request for a suspension of the commission's order having been deferred. While the matter is regarded here as primarily one of law it is possible that the appeal to the cabinet may be followed by requests for a hearing before that body on the ground that questions of fact, as well as of law, are involved in the commission's ruling and its interpretation of its powers.

Large Wheat Decline

Crop Estimate Gives Total Yield As
271,622,000 Bushels

Ottawa.—A crop report issued by the bureau of statistics estimates the wheat crop at 271,622,000 bushels.

This is 20,000,000 bushels less than the last estimate. The final estimate for last year was 474,199,000 bushels.

For the three prairie provinces the provisional estimates of the yields of the five principal grain crops are, in bushels, as follows, the final estimate for last year being given within brackets:

Wheat.—245,306,000 (452,260,000).
Oats.—233,435,000 (391,756,000).
Barley.—66,320,000 (59,778,200).
Rye.—11,758,000 (20,842,000).
Flaxseed.—9,641,000 (7,644,800).

May Build Singapore Naval Base

Sydney, Australia.—Premier S. M. Bruce, in a recent speech said he was confident that the new British Government would proceed at an early date with the construction of the naval base at Singapore, and would give effect to decisions of the Imperial Economic Conference of last year.

Uses Radio To Boost Loan

Paris.—Finance Minister Clementel is to open the selling campaign of the new French internal loan in comfortable and modern fashion, broadcasting from his office armchair a talk extolling and explaining the advantages of the new bonds to the investor and the government.

Charles Dickens' old home, Gads-hill Place, is being transformed into a young ladies' boarding school.

U.S. INTERESTED IN UTTERANCE OF SIR AUCKLAND

Washington.—United States Government officials and members of congress expressed keen interest in the utterances of Sir Auckland Geddes, former British ambassador to the United States. Sir Auckland, speaking at Westminster Hall, London, held that the United States was exercising a profound influence on the United Kingdom, and, to an even greater extent, on Canada and other Dominions, and that in Washington there "is an instinctive understanding of their difficulties."

Few leaders in the United States would have been prepared to portray the influence of the United States over the Dominions or the United Kingdom as so great as Sir Auckland put it. Nevertheless, it has been realized here for years that there has been a gradually improving understanding with Canada and the British Empire in general. Sir Auckland's remarks are the most interesting as it has been well known here that he has discouraged the sending of a Canadian ambassador to Washington. Sir Auckland's reference to "Dominions that look on the Pacific" is regarded here as an allusion to the Japanese immigration question, on which this country, Western Canada, Australia and New Zealand have, to a large extent, a common view.

Denounces Bolshevism

Emma Goldman Execrates Russia's
Soviet Government

London.—Emma Goldman, who was deported from the United States in 1919 as an undesirable alien, and now seeks asylum in England, was welcomed by three hundred Britons to their country at a dinner given in her honor here. Miss Goldman spent a considerable part of her exile in Russia, and she eloquently execrated Russia's Soviet Government.

The oppressed masses in Russia, she said, were being silenced as they never were under the Czar, and all ideals had been discredited by the ruling forces in that country. Bolshevism, she characterized as an international disease, and she promised to fight hereafter, wherever she might be, for the principles of liberty, which were the most essential things in human life.

"To call the present Soviet Government a worker's experiment is the most preposterous lie ever told," Miss Goldman told her audience.

French Scheme To Lower Living Cost

Will Import Thousands of Live Sheep
and Cattle

Paris.—To bring down the price of the family steak and chop the federation of French provision traders has submitted to Premier Herriot a scheme for the importation on the hoof of 70,000 sheep and 20,000 cattle from the Argentine, Uruguay and Abyssinia. The federation spokesman claimed that this imported meat would be at least 10 cents a pound under the price of the home-grown article, and succeeded in convincing the premier to the extent that the latter agreed to recommend that the minister of agriculture permit the plan to go into operation.

Defeat Of Victorian Labor Government

Adverse Vote On No-Confidence
Motion Was Anticipated

Melbourne, Australia.—The Victorian Labor Government was defeated in the legislature by a vote of 34 to 28 on a motion of want of confidence. The no-confidence motion was moved by J. Allan, leader of the Farmers' party.

The adverse vote against the government was anticipated.

Commemorates First Flight

Paris.—A memorial stone commemorating the first officially controlled airplane flight in France was inaugurated at Bagatelle, in the Bois de Boulogne, where M. Santos-Dumont covered 220 meters in 21 1-5 seconds on November 12, 1906.

BRITISH YOUTHS TO STUDY FARMING

The first party of British youths brought to Alberta under the Empire settlement plan to study western farming conditions, reached Vermilion over the Canadian National Railways recently. The boys are shown here on their arrival at the Canadian National station at Quebec en route to Western Canada.—C. N. R. Photos.

Mediterranean Was Once Whole World

"EMPERESS OF SCOTLAND"
(AT FUNERAL)
MADEIRAWAILING PLACE OF
JEWS IN
JERUSALEM

history's pages. "Have you looped the loop around the Mediterranean?" is a phrase much in vogue, and each year thousands of wanderlust folk are able to say "Yes!" and wish that they were going to loop the same old loop again.

The "Empress of Scotland," if a big steamship of 25,000 tons gross register and 37,500 tons displacement, could be interviewed, would say that she was departing on her fourth annual cruise of the Mediterranean from New York on Feb. 9, 1925, and that although she could find her way around in the dark she would much prefer daylight so that she would not miss any of the wonderful scenery of the Mediterranean. Passengers on the "Empress" will see Madeira, then drop in to pay a call upon Lisbon, Portugal, as well as another call upon Cadiz, Spain, with Seville as a side trip. Gibraltar, the famous "Rock" next gets the once over, and then Algiers, capital of the French colony of Algeria is visited. Athens, Greece, Constantinople and the Bosphorus are next, and when the ship visits Beirut and Haifa all the famous places of the Holy Land are within a short distance of the vessel. "The storied Nile" awaits the "Empress" and 12 days are spent in seeing the cities

of Alexandria and Cairo, the Pyramids, the Sphinx, etc.; then Naples, Pompeii, Rome, Monaco, Cherbourg, Southampton and other places. One can see a lot in 62 days in and about this cradle of civilization, and that's the job of the big oil-burning "Empress of Scotland," the largest vessel in the whole Canadian Pacific fleet.

The Mediterranean was once the whole world from a marine standpoint; to-day it is but a small part of the marine world, but when the traveller of this century passes through the strait of Gibraltar and makes a tour of the gateway ports covering Algeria, Greece, Turkey, Syria, Palestine, Egypt, Italy and Monaco he has visited the very birthplace of the world and seen most of the things he has longed to see from early youth. Wanderlust is in every breast, young and old, and to-day the world is on the march, seeing strange peoples and visiting places looming large on

Wanted, For Sale Ads.

FOR SALE:—Few purebred Yorkshire boars and sows. Ready for service and all good stock. Apply Amos Weber, phone 1113. 4p46

Here and There

Radio stations are to be established near Montreal and Vancouver as links in the Empire wireless station program as the result of arrangements just completed between the British Government, the Department of Marine and Fisheries of Canada and the affiliated Marconi companies.

The Manitoba Pulp and Paper Company will, it is understood, shortly establish a plant at St. Boniface, near Winnipeg, Man. The company plans to expend \$3,500,000 of its \$5,000,000 capital on immediate operations, and to build a 200-ton newsprint mill, employing about 700 men.

Canada's trade is growing at a faster ratio than ever before, despite the war. She now sells to 100 and buys from 77 countries. Her total foreign trade, in the calendar year 1923, reached \$1,918,264,789, an increase of 16 per cent in one year, and her interchange of commerce increased 70 per cent between 1913-14 and the past year.

John B. Thompson, noted sportsman and writer on the out-of-doors, widely and popularly known by his pen name of "Ozark Ripley," is visiting the Canadian Pacific bungalow camps in Ontario, giving demonstrations of his skill as a fly and bait caster, as well as free casting lessons to guests and informal talks on fishing and other outdoor subjects.

Buy Your Cars From The Ford Contestant

*Help Your Neighbor
Win a Prize*

Some neighbor of yours who owns a Ford has enrolled as a special Ford salesman in your community. He is selling Ford products on the basis of one satisfied customer making another, and he wants to tell you about his own experience with Ford cars, trucks or tractors, to show you from his own knowledge, that these products are ideally suited to your needs and will save you time, energy and money.

He has no carefully prepared selling talk to bombard you with, he is dealing with the plain simple facts of his own experience and you should hear what he has to say about the Ford before you buy any car, regardless of make.

Such is the confidence of the Ford Motor Company in Ford products that it is willing for you to decide which car you will buy, solely on the strength of your neighbor's experience.

As a reward for this service, he may win one of the valuable prizes offered in the Farmer Ford-Owner Contest, so, if you are thinking of buying a car, be sure to buy it from this neighbor of yours and help him win a prize.

Your local Ford dealer will gladly give you the names of all contestants in your community. Just phone him.

H. S. Vickerson, Owner.

W. G. Liesemer, Clerk.

J. W. Phillipson, Auctioneer.

So heavy was the movement of grain from the lakes to the port of Montreal recently that serious congestion was feared. The storage capacity of the port is 10,100,000 bushels and the grain in sight was greatly in excess of this figure. But skilful handling quickly reduced the amount in hand to 7,956,442 bushels, relieving the situation completely. No further possibility of congestion is anticipated.

It is expected that before the season closes, the work of rockballasting the main lines of the Canadian Pacific Railway in the Quebec District between Montreal and Ottawa, Montreal and Toronto and Montreal and Quebec will be completed. The latter section requires only a few miles to be finished, while the other portions of line referred to have already been finished. As a result, the Canadian Pacific will have in these lines a road-bed which is not excelled by any other on this continent.

Here and There

"Moose are plentiful in the Chapleau, Ont., district, and hunters can secure a good 'bag' of deer and bear," says J. W. McVay. Experienced guides can be obtained and hunters are assured they will get their limit.

"One of the things for which Canada is most to be congratulated is that she has established a system of education that compares favorably with any in the world. Canada is a nation of literates, she has a remarkably small proportion of illiterates," stated the Right Hon. H. A. L. Fisher, former Minister of Education in the British government, when disembarking at Montreal.

"One of the many gifts offered by enthusiastic individuals to the Prince of Wales on his visit, the majority of which he could not for obvious reasons accept, was a package of French-Canadian tobacco grown on a farm at St. Roch l'Achigan, situated near the boundaries of Montcalm and Assomption counties. In a letter from the Alberta ranch the Prince through his secretary thanked the donor for the gift.

A cablegram from London, England, quotes an article in the "Financial News" dealing with the British Empire Exhibition. It stresses the exceptionally fine exhibit staged by Canada and the unquestionable benefit to trade relations it has effected. The article pays a high tribute to the Canadian Pacific Railway exhibit, describing the railway's gorgeously illuminated map of Canada, with its 5,000 incandescent lights as probably the most brilliant specimen of cartography ever seen at the exhibition or elsewhere.

It has been announced that H. J. Logan, M.P. for Cumberland, will accompany the Minister of Trade and Commerce to the West Indies to negotiate a new reciprocal treaty with those islands. The general purpose of the visit is to admit West Indian commodities free in return for Canadian manufacturers receiving similar treatment, the products of the two countries being entirely dissimilar. It is also hoped to build up a direct system of importations through Canadian ports instead of through the United States, by which route a great proportion of West Indian products now come to Canada.

The Canadian Pacific Railway has appointed P. A. Cox, general agent, to be assistant Oriental manager, at Shanghai, and E. F. L. Sturdee, acting general passenger agent for the Orient, to be general passenger agent for the Orient, with headquarters at Hongkong. Leo Solloway, recently appointed Asiatic freight agent, with offices at Montreal, and supervision over Oriental and Australasian traffic via Pacific ports, has the distinction of being the youngest official in the Canadian Pacific Service. He was born in Vancouver, in 1895, and has been in the steamship freight service 14 years.

The winners of the Canadian Pacific Railway's Ontario bungalow camps fishing trophy competitions for 1924 were announced recently. The French River competition resulted in two competitors turning in fish almost identically alike. In this contest a tie was declared. The successful anglers were D. W. L. Hawkins, New York City, and H. H. Champ, Hamilton, Ontario, each entering a small mouth bass weighing exactly 4 pounds. The winning fish at Nipigon River Camp was a 6 pound, 10 ounce trout, caught by William Metzger, Detroit, Michigan. The Devil's Gap (Lake of the Woods) trophy was won by J. A. Furlong, Winnipeg, Manitoba, who entered a muscalunge weighing 20 pounds, 8 ounces.

(Continued)

Seymour smiled his appreciation of the care she was showing in his behalf. So she had dared call Bonhomme a murderer to his face! The wonder was she hadn't drawn a bullet for herself instead of silence.

"I'm figuring on coming out through the canon, Moira dear—sort of unlatching the gate from the inside. There must be another way in." Seymour's tone was confident, although the other way of which he spoke was yet to be found.

"There is another way in!" This welcome declaration boomed upon their ears from the old missionary at his desk under the window. Evidently he had not been so absorbed in his Biblical translation as they had thought him. Now he pushed back his chair and crossed to the fireplace.

"I discovered this other way while exploring the spur last spring, just before this curse of gold fell upon us," he explained. "Had I known what Bart was up to, I'd have shown him this secret way. I did not actually enter the gulch by it, not trusting muscles that are getting ragged with age, but you can, brother. If your head is level, your fingers and toes strong."

"Score one for the sky-pilot of Argonaut!" cried his daughter, throwing her arms around his neck and patting him on the back. "Since they've smitten us on every cheek we possess, it's high time we smote them back."

In planning for the hazardous attempt immediately, Moira O'Malley's insistence on going along proved a complication. Before the sergeant realized her trend, he had admitted knowing only a smattering of Chinook. The girl, it seemed, spoke the tongue of the provincial Indians fluently.

"These Siwash are by no means as dumb as they look," she said. "They will know who left the diggings on this murder ride yesterday morning. They'll tell me, and then you'll know the man you're after."

Seymour at once rejected her offer as rash beyond reason. Her father, however, seemed passive, perhaps silenced by his admiration for her courage.

"Why, I'll be safe enough with such an officer as you to protect me," Moira declared. "Think what you've already done for me!" But her trustfulness did not appeal in this extremity. Seymour insisted that such a piece of scouting was no work for a woman. She might cross-examine her Siwash after he had cleared the creek of whites, but not before. In the end, therefore, there was a compromise, to the extent that Moira should come as far as the edge

PAINS IN LEFT SIDE AND BACK

Other Troubles Women Often Have Relieved by Lydia E. Pinkham's Vegetable Compound

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back, and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. ROSE, 580 Notre Dame Street, Lachine, Quebec.

Doctor Said an Operation

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. ADAMS, Box 54, Provost, Alberta. C

W. N. U. 1551

of the gulch—to see that her father got home safely.

The sergeant departed from the mission openly, carrying his tin pail. He even hoped that the house was, as the girl feared, being watched through a glass from the canon's mouth. At his camp, he made hurried preparations, pocketing a supply of "hard" rations and extra cartridges for his gun. Down in the meadow, he unpicketed both horses. They could be trusted to stay near the tent and, in case his return was delayed, they must not suffer from want of grass and water. Although the Rev. O'Malley had said nothing about need of a rope for his "other way in," Seymour quickly spliced the two picket strings and coiled the length over his shoulder. Gaining cover of the timber, he made his way as rapidly as possible to the rear of the mission house where the O'Malleys awaited him.

The spur proved a hard climb and the missionary needed help over several of the rougher places. But at length he brought them to a point where the sheer wall of the boxed-in gulch was many feet lower than the remainder.

Even there, a dizzy drop intervened between the top and a narrow ledge that promised a path to timber line for one who was certain of foot. The old man pointed out certain crevices and projections by which a daring climber might work his way down to the ledge; but the sergeant was glad he had brought his rope with which to simplify the start.

The risk that anyone would catch sight of him as he lowered himself seemed slim, for the creek at this point was some distance away and a thick growth of fir lay between. At any rate, this was a risk to be taken; he must negotiate that ledge in daylight.

"You'll come out at the Indian burying ground," said the missionary. "I'm sure it lies in front of this dip in the wall. Conceal yourself there for the night. The Siwash will be anywhere else after darkness falls."

With this sage advice, the veteran missionary started back over the trail, his mind already speeding to other matters now that he had done all he might in the one at hand.

For just a moment the lovers who had been through so many trying experiences enjoyed their first interval alone since the Montreal parting. This was more mental than physical in view of the stress of the situation.

"You've explained to Ruth?" Seymour asked presently.

"In part—that you're the real Russell Seymour. She still thinks that this Bart was an officer but using your name for some official reason. I haven't told father about Oliver yet, and—should I tell him?"

As often, Seymour's expression was an enigma to her.

"Not yet," he said finally. "It just may take some of the sting away if you can present him with a son-in-law in partial place of his first-born who cannot be returned."

"You think, Russell—oh, do you think you are on the track?"

"I'll get him—Karmack—somewhere," he assured her.

Having knotted his rope at fifteen-inch intervals, the sergeant made one end fast to a sturdy young cedar which grew near the edge and cast the loose end into the canon. As nearly as he could determine by peering over, the hemp reached almost, if not quite, to the ledge.

"How soon shall we look for your return?" Moira asked a bit hysterically when all was ready.

"When I come out through the canon gate," he hoped his laugh was reassuring.

CHAPTER XXIII.
When Morning Came

The rope proved long enough but there was no overhang. And the ledge was a path down the face of the cliff, but so fragmentary that many times the hold of his fingers forced into crevices alone made it passable. At the very start, an apparently solid piece broke off under his weight and almost cast him into the depths. After that lesson, which came so near to being his last, he sidled along the wall so that his toes might set as near the face of it as possible.

Fifty feet from the bottom of the gulch the ledge ended. He was forced to stake all on a hazardous leap into the top of the nearest fir tree. While the upper branches gave under his hundred and eighty pounds and countless needles pricked him, his fall was broken and eventually stayed by the stouter limbs below.

In the gathering dusk he gained the burial ground of which O'Malley had spoken. Familiar as he was with the native customs of the Northland, he felt thankful, when this settlement of the dead loomed up in the gloom, that he had been prepared for the spectral effect. Built on stilts above each grave were huts of bizarre woodwork. In each, he knew, were housed the particular personal treasures of some departed brave, but nothing of intrinsic worth.

Seymour was not superstitious and, much as he might have preferred other habitation for the night, he did not hesitate to borrow a lodging here. Selecting the most commodious of the "hatches," he climbed under its roof. Although this particular 8 x 10 box boasted both a spire and a dome it was open on one side, presumably for the purpose of exhibiting a black bottle, an alarm clock from which the works had been removed, and other heirlooms of some Siwash gone to happier hunting grounds. It offered a measure of protection, however, against the chill that came with darkness. As he had no blanket and dar-

BEECHAM'S PILLS
Sweeten the Stomach

ed not light a fire, this "spook roost," as he thought of it, was more than welcome.

A short distance up the creek from his refuge and on the opposite bank lay an Indian camp of four or five families, to judge by the number of supper fires. He watched the natives through their meal, the while munching a tasteless emergency ration that was guaranteed to be rich in calories.

The Indian camp proved unusually quiet. He had heard Eskimo hunting parties make far more of a powwow around their night fires of blubber. There was no ribald song or laughter, no fighting, which were to be expected if the despoilers were supplying the natives with liquor, as Moira had told the sergeant.

The yelping of many hungry dogs warned him of the folly of trying to scout the camp under cover of darkness. He decided to stay where he was and to begin his explorations in the morning when work was under way. Gradually, with the fires, the noise of the camp died out, as if the sleeping mats were superattractive to the natives after a hard day's work on the glaciers.

Politics made strange bedfellows, Seymour had heard. Well, he stood ready to testify that police duty in the Argonaut Valley brought one to strange beds, too. His first night in a jail bunk; his second in a Siwash mausoleum! And on both occasions, nothing softer than his hat for a pillow!

But the murmur of the rushing creek and the soothing of the firs invited sleep; he yielded to the lullaby.

A crash like thunder awoke him at one time in the night, but he found the sky clear on looking out. Not until a second report came could he locate the source—the glacier in which the creek had its source. The green monster was sloughing off its ice. There came variations in the alarm whenever new crevasses were split with a terrific, smashing noise.

The worst start of the night, however, came in a sense of falling and landing with a thump that shook every bone in his body. That he had fallen and landed, not dreamed the sensations, became clear when he found himself on the ground and looking up at the hut. He had rolled out of "bed."

Seymour was up the next morning with the kleetchmen, and they arose with the sun. Before the Indian camp was thoroughly awake, he had slipped out of the burying ground and gained the cover of the timber fringe along the south wall of the gulch.

From what he could see now of the formation, he determined that Glacier Creek was not as inaccessible as reputed. There were other possible entrances, at least one of which appeared less hazardous than that by which he had come. In the past the natural entrance to the canon had always been open and no one had ever found it necessary to work out another.

Refreshing himself at a spring upon which he had stumbled, he turned first to an investigation of the canon a quarter of a mile below. So nearly did the wings of the rocky spur meet that there was scarcely a hundred feet between walls at the narrowest point. Through this gap, Glacier Creek poured without hindrance. Along the opposite wall ran a wagon-width trail.

At a point about halfway through the canon stood two tents, the canvas of which still was white. Doubtless this was the camp of the guards and, perhaps, that of the promoters of the steal. Just now he was satisfied with placing this camp; close investigation could wait until he learned what

MRS. JOHN SIMPSON

Do You Need Help? This Advice is Well Worth Reading!

Kirkton, Ont.—"I have found Doctor Pierce's Auric Tablets to be an excellent medicine. I have been troubled with inflammation in the neck of my bladder for about eight years. I doctored but failed to get cured, so I decided to try Doctor Pierce's Auric (anti-uric-acid) Tablets and they have relieved me greatly."

"I also can recommend Dr. Pierce's Favorite Prescription for expectant mothers. I have a fine, big baby boy. My nurse asked me what I ate to make him so strong. He looked like a child four or five months old when only three. I certainly would advise every prospective mother to use Dr. Pierce's Favorite Prescription."—Mrs. John Simpson, R.R. 1.

Send 10 cents to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg. of any of Doctor Pierce's remedies and write Doctor Pierce, President Invalids Hotel, Buffalo, N. Y., for free, confidential medical advice.

"richer than gold" was being gleaned up the gulch.

Slowly he worked up the stream, keeping back from the bank and well screened by the brush. Breakfast was over at the camp near which he had spent the night. Twenty Indians, men and women, were at work picking and shoveling in a near-by bench and wheeling loaded barrows to a long wooden sluice box into which a small stream of water had been diverted. The onlooker was puzzled that they were working with such seeming good-will. In fact, he had never seen natives so industrious. Nowhere was any whip-armed master visible.

A blast from upstream did not concern him greatly, as he thought the glacier was cutting daylight capers. But when other reverberations crashed out at regular intervals, he felt certain that dynamite was being exploded. This would explain why the Siwash were able to work so freely in the frozen gravel and gave color to Bart's report that the claims were being "stripped."

(To be continued)

Light From Trees

Scientist Obtained Sufficient Current To Light a Small Electric Lamp

A method of extracting electricity from trees has been devised by a French scientist. He connected a copper plate attached to a tree, and another plate buried in the earth, with a galvanometer, a delicate instrument which measures the strength of weak currents of electricity, and obtained a record of the current passing through the tree.

With three trees connected in the same way the power was increased, the experiment, with a like result, being continued until twenty trees were linked up in this fashion.

The scientist then placed two copper plates in the earth, about six feet apart, and with the current thus obtained lighted a small electric lamp.

Whether the idea can be extended to be commercially worth while has yet to be determined.

Turks Building Statue Of Mustapha Kemal

Although Koran Forbids Making Image Of Any Kind

In defiance of the Koran, which forbids the making of any image of man or beast, enthusiastic Turks will provide money to build a 30-foot statue of Mustapha Kemal.

The prohibition against the making of "graven images" which occurs in the Koran was set down by Mohammed and Abu Bekr because they reasoned that the ordinary individual would have trouble keeping his mind on the worship of an invisible God with all sorts of visible heroes scattered around to worship.

And, happily or unhappily, the result of that reasoning has been to implant in the minds and hearts of true Moslems a fiercer and more intense devotion to their deity than that which characterizes devotees of any other religion.—Vancouver Sun.

India's Woman Legislator

First One To Be Appointed Member Of Local Council

India's first woman legislator is Mrs. Poonen Lokose, who has been appointed by the Maharajah Regent of Travancore to be a member of the local council. She is a Syrian Christian doctor and has been head of the state medical service for several years.

Mrs. Lokose was educated in England and when attending London University was the only Indian woman studying outside of India.

LITTLE HELPS FOR THIS WEEK

Whatever ye do, do all to the glory of God.—1. Cor. x, 31.

Teach me, my God and King.

In all things Thee to see, And what I do in anything, To do it as for Thee.

All may of Thee partake; Nothing can be so mean Which, with this tincture, "for Thy sake,"

Will not grow bright and clean. —George Herbert.

We treat God with irreverence by banishing Him from our thoughts, not by referring to His will on slight occasions. He is not a finite authority or intelligence, which cannot be troubled with small things. There is nothing so small, but what we may honor God by asking His Guidance of it, or insult Him by taking it into our own hands.

—John Ruskin.

WANTED IN EVERY HOME

SOOTHING HEALING ANTISEPTIC

When a hydroplane took fire and fell into the sea off Oran, Algeria, the pilot and wireless operator clung to one of the floats and were rescued by a torpedo boat.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the new-born babe with perfect safety. You can obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from The Dr. Williams' Medicine Co., Brockville, Ont.

Grains of dust are counted by a government expert to determine how much dust the average individual breathes.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Archibald Geikie, former president of the Royal Society and the Geological Society of London, is dead.

Switzerland's allotment for the reconstruction loan to Germany under the Dawes reparation plan, has been oversubscribed \$108,000, according to a Central News dispatch.

Charles W. Lightbody, of Yorkton, Sask., is the Saskatchewan Rhodes scholar for 1925. He was selected by the Rhodes scholarship committee from among six applicants.

The number of divorces in the United States last year was 11 per cent. more than in 1922, while the number of marriages was only 8.4 per cent. larger than the previous year.

Madame A. Kollantay, is the first woman in the world to be appointed as a minister plenipotentiary. She has arrived in Christiania as the ambassador from Russia to Norway.

It cost the United States slightly more than ten cents a meal for its soldiers during the fiscal year ended last June 30, according to the annual report of the quartermaster-general.

Americans are eating more butter. The department of agriculture announces that 50,000,000 pounds more were consumed in the first nine months of this year than in the same period last year.

Failures in Canada during the week ended Nov. 7, totalled 38, as compared with fifty for the corresponding week of 1923, according to Dun's Bulletin. Manitoba reported four, Saskatchewan three and British Columbia one.

Sore, Aching Corns Drop Out In Hot Bath

To take the sting out of corns and to be sure you are going to be rid of them quickly, the hot foot bath employed with Putnam's Painless Corn Extractor is best of all. To use "Putnam's" is to end corns quickly. The sting disappears, toes feel better at once—another application or two and the corn goes away. Satisfaction is assured to everyone who uses Putnam's Painless Corn Extractor, 25 cts at all dealers.

PUTNAM'S Corn Extractor

Elevator Co. Extends Operation
Provincial Incorporation of the Saskatchewan Co-operative Elevator Company, Ltd., of Regina and Vancouver, with a capital of \$5,000,000, is announced in the British Columbia Gazette.

TROUBLED WITH ECZEMA ON FACE

Very Itchy. Caused Eruptions. Could Not Sleep. Cuticura Healed.

"I was troubled with eczema on my face. It broke out in a rash on my chin and was very itchy. Scratching caused eruptions and in a few weeks it spread all over my face. I could not sleep, and whenever I washed my face I would almost have to scream."

"I read an advertisement for Cuticura Soap and Ointment and ordered a free sample. I purchased more, and after using two cakes of Soap and one box of Ointment I was healed." (Signed) Miss Kathleen Rothenbush, Box 40, Duff, Sask.

Use Cuticura Soap, Ointment and Talcum daily and keep your skin clear and healthy.

Sample Each Free by Mail. Address Canadian Depot: Cuticura, P. O. Box 3618, Montreal. Price Soap 25c, Ointment 25c and Box Talcum 50c. Try our new Shaving Stick.

Making Moscow Modern

Special Commission Seeking Foreign Loans to Help Project

Moscow will soon rival in beauty and civic modernity any European capital, if present plans of the municipal authorities materialize. Preparations are being made for the construction of a subway and the establishment of omnibus systems, taxicab lines, new tramways and other improvements. The present sewage and canal system will be entirely remodelled. A special commission representing the Moscow Soviet has left for Germany, France and Great Britain to seek foreign loans for these projects.

WHY RHEUMATISM OFTEN COMES BACK

The Usual Treatment Does Not Reach the Root of the Trouble

Most treatments for rheumatism do no more than aim to keep down the poison in the blood and enable nature to overcome that particular attack. Then when the system becomes run-down from any cause the disease again gets the upper hand and it all has to be done over.

Sufferers from rheumatism who have found their condition unrelieved or actually growing worse while using other remedies, would do well to try Dr. Williams' Pink Pills. The tonic treatment with this medicine has proved in thousands of cases that it builds up the blood to a point that enables it to cast out the rheumatic poisons through the regular channels, the bowels, kidney and the skin. When this is done rheumatism is banished, and as long as the blood is kept pure and rich the patient will be immune from attack. This is fully proved by the case of E. E. Davis, J.P., of Dismore, Sask., who says:—"I feel it my duty to sufferers from rheumatism to recommend Dr. Williams' Pink Pills. Some years ago I was a great sufferer from this trouble and was confined to my room. I tried two doctors without relief and had become despondent. Then I saw Dr. Williams' Pink Pills recommended for this trouble and got six boxes. Before they were all gone I was able to get around on crutches, and when I was on the eleventh box I started to work. I have not missed a day's work since on account of rheumatism. On two occasions since I have had light touches of the trouble, but a box of the pills soon put me right. I strongly recommend rheumatic sufferers to give Dr. Williams' Pink Pills a fair trial."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Anti-Rolling Device For Ships

Demonstration Made On Atlantic Liner Proves Successful

The efficiency of anti-rolling tanks was determined on the last trip of the Hapag liner Albert Ballin from New York to Hamburg, when the ship for the first time encountered rough seas. Scandinavian Shipping News reports that the gyroscope-pendulum indicated a rolling movement of six degrees against the horizon with the tanks in operation.

When the anti-rolling device was put out of service, the steamer rolled instantly up to an angle of 16 degrees.

Nation-wide Fame—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

"Rocket" Plane Is Latest

French Air Service Experimenting With Queer New Type

Experiments will shortly be made with a queer new type of aeroplane which has neither engine nor propeller in the ordinary sense.

The "rocket" plane, as it has been dubbed, figures on the experimental programme of the French Air Service. Instead of being provided with the usual engine, the motive power is generated inside the cabin of the machine itself. The apparatus produces gas under pressure in a combustion chamber and then ejects it, at the rear of the machine, into the air by a kind of nozzle.

A reaction is set up which, it is claimed, will drive the plane at much greater speeds than the ordinary type of motor would do.

Indian ink is made from burnt camphor. The Chinese hold the secret of the process and will not reveal it.

Minard's Liniment for Colds

SUNDAY SCHOOL LESSON

NOVEMBER 13

THE TRANSFIGURATION

Golden Text: This is my Son, my chosen; hear ye him. Luke 9:35.
Lesson: Luke 9:28-35.
Devotional Reading: Psalm 86:1-7.

The Text Explained and Illumined

The Transfiguration, verses 28-31. The time of this event is given by all three Evangelists; it was about a week (after six days, say Mark and Matthew; about eight days after, says Luke) after "those sayings"—Peter's acknowledgment at Caesarea Philippi that Jesus is the Christ, the Son of the Living God, and Jesus's announcement of His coming crucifixion. "The Son of man must suffer many things," Jesus said; "be rejected of the elders and the chief priests and the scribes, and be killed and after three days rise again." This Peter had not been able to accept: "Far be it from thee, Lord; this shall never be unto thee," he had cried. Jesus had energetically repelled the suggestion: "Get thee behind me, Satan," he exclaimed; "thou art a stumbling block to me, for thou mindest not the things of God, but the things of men." The week that followed must have been no ordinary week in the training of the Twelve, for they were far from the crowds that followed Jesus in the homeland, and wholly free from interruption. Dr. A. B. Bruce reminds us that the Gospel historians are not wont to be so careful in their indication of time, and their minute accuracy here signifies in effect: "While the foregoing communications and discourses concerning the cross were fresh in the thought of all, the wondrous events we are now to relate took place." The date, in fact, is "a fingerpost pointing back to the conversation on the passion, and saying, 'If you desire to understand what follows, remember what went before!'"

Soviets To Build Merchant Marine

Vessels Will Be Built Entirely In Russian Shipyards

Soviet Russia has begun the creation of its own merchant marine. It has just laid the keels of eight cargo boats and four passenger steamers. The vessels will be built entirely in Soviet shipyards, principally at the Putilov Iron Works and the Baltic Shipbuilding Yards at Leningrad.

The total cost of the 12 vessels, which will have an aggregate of 35,000 tonnage, will be \$5,000,000. They will be completed early in 1926. The government hopes through these steamers to lower freight rates and to compete with foreign shipowners.

She Got Relief From HEART TROUBLE

By Using

MILBURN'S

HEART AND NERVE PILLS

Mrs. Geo. E. Bowman, Morrisburg, Ont., writes:—"I am writing you a few lines to let you know of my experience with Milburn's Heart and Nerve Pills."

Two years ago I became very poorly with my heart and nerves and whenever I took the least little bit of exercise my heart would start to jump and flutter.

I could not walk up-stairs without having to sit down and rest before I was half-way up, on account of my breath becoming so short.

I commenced taking Milburn's Heart and Nerve Pills, and in no time I felt a great improvement and can now heartily recommend them to all those who are troubled with any affection of the heart."

Milburn's H. & N. Pills are for sale at all drug and general stores; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Yokohama Is Growing

Yokohama is gradually coming back to its pre-earthquake size. Census figures show that 310,000 persons now live in the city, while the month after the earthquake more than a year ago the population had dropped to 250,000. The present population is within 100,000 of the old mark.

Why Flyer Was Delayed

Found Cow Had Eaten Holes In Wing Of Plane

"Delayed by cow eating wing. Home tomorrow."

This message was received by the officer in charge of flying at Brooks Field, San Antonio, Tex., about the time he was thinking of sending out a search party to find Lieut. Robert Wimsatt.

Wimsatt had flown to Fort Worth. When he returned to his plane after having transacted a bit of business he found great holes in the lower wings and stabilizer. Nearby was a cow.

Wimsatt made the necessary patches and hung around on guard while they set.

Have Umbrella Duel

A scene reminiscent of another day was staged on the streets of Hull recently when two local business men engaged in a fierce duel. Instead of swords, however, they fought with umbrellas. The duel was to decide the payment of a bet.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp.

When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Sweden Will Stay Dry

One of the results of the recent Norwegian elections in which the Conservative and Agrarian (Peasant) parties secured a narrow combined majority of two seats in the Storting, will be the retention of prohibition which was opposed by the Conservatives, but favored by a majority of Agrarian nominees.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

The first vessel of Hungarian registry ever to dock at Montreal arrived for a cargo of grain. She was the Oceana from Budapest.

AROUND THE TOWN

Continued from page 1

The St. Hilda Chapter of the O. E. S. will hold a Whist Drive and dance in the Didsbury Opera House on Friday, December 5th. Admission 75 cents. Everybody welcome.

A change is being made in the operation of the North End Lumber Yard and the new manager, Mr. S. G. Watt of Hanna, is taking over the yard for the new interests.

We still have a few of those fine boxed Christmas cards—10 to a box, no two alike and each has an envelope. These are selling at \$1.25 per box. Come to the Pioneer office and get one before they are all gone.

A dance will be held at the Elkton schoolhouse on Friday, December 5th. Bellamy's orchestra. Ladies please bring lunch. Everybody welcome.

Mr. G. Dippel had a rather serious accident last week. He was reaching under a threshing belt when the belt broke, breaking his arm. The injured member is getting along as well as could be expected.

It's time you ordered those private greeting Christmas cards. Come in to the Didsbury Pioneer and see our splendid new line of samples. Reasonable price—quality goods.

Mrs. W. Sharp left Tuesday for Vancouver where she will attend the wedding of her daughter, Beatrice Helen, to Mr. Austin J. Alexander, a student at the University of Columbia College. Dr. Sanford, professor of the college will officiate.

Rev. Marr of Calgary will be in town Sunday, November 23rd and hold three services in the interests of the Bible Society. He is speaking in the Ev. church at 11 a. m., the M. B. C. church at 3 p. m. and the Presbyterian church at 7.30 p. m. All are cordially invited to attend these services.

Tonny Thompson, the well known and popular manager of the North End Lumber Yard, is reported to be leaving us soon. Since coming here in 1915 Mr. and Mrs. Thompson have made a host of friends for themselves who will be sorry to learn of their departure but will wish them good luck wherever they go.

A week from this Friday there will be a picture show in the Opera House under the auspices of the Didsbury Literary Society. The picture being brought in is the "Vicar of Wakefield." The show will be held at 8.30 and admission will be 40 and 20 cents. Further particulars of this great play from Oliver Goldsmith's book the "Vicar of Wakefield," will be given next week and it is a picture which is well worth seeing.

50c ONE YEAR

\$1.00 For Two Years

Crop Yield Offer

This reduced price, made to share the loss of those with poor crops, benefits everyone. If your crop was small, pay 50c for One Year; if good, pay \$1 for Two Years. You decide. The price per year is the same to you but the Two Year payment saves us money in handling your subscription and saves you trouble in renewing.
